Product Descriptions

The Clover B7A hot and cold water cooler offers chilled water for drinking or hot water for instant soups and beverages. This high-quality water dispenser offers structural durability with high density, UV protected polyethylene construction. Forget about spilling, a double float valve with a secondary safety float mechanism work together to reduce water loss. The Clover water cooler has a hygienic stainless steel water tank to provide clean, pure water for a household or office. Available in white or black. Thermostat Control The Clover B7A hot and cold water dispenser features a cold water the
